to me 

5:35 PM (14 hours ago) ☆

I regret to withdraw from the race for State Representative of District 8. I felt it was in the public's best interest as I came down with a severe upper respiratory infection two days after declaring my candidacy. A week and a half later and with antibiotic treatment, I still had no improvement. I did not want to infect anyone else and knew that there would be many public speaking opportunities where I might make someone else ill.
